

American Red Cross Family Caregiving Classes Certification Program

Looking for new ways to increase community visibility, referrals and revenues?

Consider the American Red Cross Family Caregiving Class - Certification program. This 9 Caregiving Class series brings added value to your in-house caregiver training and enables you to offer classes and booklets to your clients and public. Certified sites benefit by promoting their authorization to hospitals, SNFs and community caregiver sites along with direct revenue opportunities through class offerings. Typically half of public class attendees have an immediate need or interest in home care services. Providers gain the usage of the American Red Cross logo with your collateral materials and are under no obligation to offer public classes.

- **American Red Cross Family Caregiving Program**

- **Certification Cost: \$249.00 plus shipping**

Includes: 1- Leaders DVD, 1 set of 9 booklets, 1 electronic teachers guide book, 1 CRG webinar training session to review materials/certification testing guidelines/conducting classes/required paperwork for the American Red Cross and marketing guidelines.

Once an individual completes the certification test they e-mail or fax it back to CRG along with the Red Cross provider documents reviewed in the training session. An electronic certificate of completion and the ARC logos are e-mailed out to the individual from CRG. The certification is a one-time process with no renewal costs.

For more information on the certification program go to Clinic Resource Group's corporate website
